Attn: Mr. Greg Kean

October 27, 2008

Dear Mr. Kean,

I am writing to commend you on your outstanding work during our recent build-out. Your knowledge and experience came to bare in the form of accurate estimates, timely completion, thorough communication, zero warranty work, and minimal disruption of our daily business.

Our company has worked with you on several occasions now. Each time we have been treated to the same consistent, professional conduct from not only your company, but that of the subcontractors that you employ.

When the need arises in the future, for any construction projects, Crown Media will not hesitate to call and include your company in any bidding process.

You have my contact information. Please feel free to have any prospective customers contact me if they require any detailed information, in addition to this letter. Thank you for all of your help during this process. You made a potentially disruptive time, run very smooth.

Best regards,

Michael J. Harmon,
Vice President – Controller
